O.E.S. Install New Officers.

An open installation of officers in connection with St. Hilda Chapter, O.E.S., took place on Tuesday night, the installing officer being Past Worthy Grand Matron Sister Duff, of Mountain View Chapter, No. 1, Olds.

Officers for 1927 were installed as follows:

Worthy Matron, Sister Leadbetter; Worthy Patron, Bro. Leadbetter; Associate Matron, Sister Hillyard; Secretary, Sister Derby; Treas., Sister Rennie; Conductress, Sister Lowrie; Associate Conductress, Sister Studer; Chaplain, Sister Guy; Marshal, Sister Tighe; Organist, Sister Stock; Ada, Sister Miller; Ruth, Sister Towers; Esther, Sister Hamper; Martha, Sister Hughes; Electa, Sister Evans; Warder, Sister Morgan; Sentinel, Bro. McDougall.

In addition to the installing officer, there were also present Past Grand Patron Bro. Duff, Worthy Matron Sister Strath, and Past Patron Bro. Strath, all of Olds.

Immediately after the installation ceremony, on behalf of St. Hilda Chapter, Sister Studer presented the installing officer with a beautiful bouquet of cut carnations.

Adjournment was then made to the adjoining I.O.O.F. hall, where the banqueting tables and surroundings had been very prettily decorated with the colors of the Order. About sixty members and friends sat down to what was generally described as one of the daintiest and most carefully prepared banquets one could possibly conceive. Bro. Leadbetter acted as toastmaster, and in addition to community singing at intervals, for which Sister Miller acted as accompanist, various little addresses were given by the visitors and members.

The whole evening was a most enjoyable one, the arrangements were perfect and a delightful and "comradely" spirit pervaded the whole as a result.

Didsbury Curling Club

Club Cup - Second Schedule

Westcott.

The Westcott Musical and Literary Club will hold a box social at the next meeting. A special program is being prepared,

which promises to be the best, the talent of the district can provide. Don't forget to advertise the date, Friday January 28th, among all your friends.

A small crowd of young folks met on the ice last Saturday and had a very pleasant time skating by moonlight.

The event of the season has passed safely, by and there are no fatalities. Mr. Dageford has been re-elected trustee and sec-treas. of the Westcott school district.

Mrs. Hughes, Mr. Wallace Hughes and C. R. Ford spent Sunday afternoon with the Webster family.

The last meeting of the club was well attended and enjoyed by everyone. The debate on Capital Punishment was won by the affirmative.

Alberta harvested last fall the second largest wheat crop in its history. The estimate now made final by the provincial department of agriculture for the 126 crop is 113,120,000 bushels, being an average yield throughout the province of 18½ bushels per acre. The Peace River crop district had the largest crop in its history, and averaged 20 bushels to the acre, with many fields averaging as high as 30 and 40 bushels.

TOWN OF DIDSBURY.

NOTICE

Public notice is hereby given that a meeting of the electors of the Town of Didsbury will be held in the basement of the Public School on Friday, the 28th day of January, 1927, at 8 o'clock p.m. for the purpose of receiving the auditor's report of the finances of the town up to the preceding thirty first day of December, and for the purpose of receiving the reports of the Chairmen of the various committees of the Council.

Dated at Didsbury, Alberta, this 19th day of January, 1927.

W. A. Austin,

Secretary-Treasurer.

WEDDING.

MARRIED—On January 3, 1927, in San Francisco, Cal., Miss Ruby E. Archer, daughter of Mr. and Mrs. W. D. Archer, of Didsbury, to Mr. George E. Riggins, of San Francisco. Rev. Dr. Gordon officiated.

The first session of the Alberta Legislature, newly elected last June, will open on February 10th, it is officially announced by the Government.

W. M. Gordon, for many years Superintendent of the Canadian Pacific Express Company in Winnipeg, has been promoted to a similar position in Vancouver. Mr. Gordon in his new position has jurisdiction over the Company's Express business in the Province of British Columbia and Alberta.

A Smart Raglan Coat for the Junior Miss.

Soft woolen material makes this girls' raglan-sleeved coat. The comfortable armhole is always a joy to the growing girl. The tailored collar, which is convertible, may be fastened closely about the neck as illustrated, or left open. The large patch-pocket and wide turn-back cuffs, together with the smart cut, make No. 1074 a practical and easily fashioned style. Cut in sizes 8, 10, 12 and 14 years. Size 10 requires 2 1/2 yards 36-inch, or 2 1/2 yards 54-inch material, 20 cents.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of the book 10 cents the copy.

Canadian Maples for New Orleans

A group of Manitoba maple trees in the public park in New Orleans, La., will commemorate the "Palm-to-Pine" sociability trip undertaken by a group of business men of the Southern city, to Winnipeg, last fall. Arrangements have been made by the City Council of New Orleans for importation of the saplings, which will be planted along one of the principal paths of the park.

Boys Growing Taller Says Chicago Doctor

Lead by Over Two Inches Boys of Fifty Years Ago

The American boy is two and a half inches taller than he was 50 years ago, Dr. Horace Bray of Chicago told the anthropological section of the American Association for the Advancement of Science at Philadelphia.

"In comparison with the figures published by Bowditch in Boston in 1877 and 1879," he said, "our modern American-born boys of American-born parents exceed in height by an average of slightly more than two and a half inches."

Dr. Gray's figures were worked out at the Institute for Juvenile Research at Chicago.

"This paper is concerned not with the cause," he said, "but with the phenomenon. It might be argued that the American boy of today is taller because he matures more quickly. But the lead of two and a half inches is maintained from six years of age right up to eighteen and therefore this suggestion falls."

"Differences in stature of children may be due to differences in ancestry or economic class. But presumably the more important cause for this apparent increasing tallness is due to progress in control of infantile diseases which damage growth or to knowledge of vitamins, sunlight and rickets, with consequent better nurture."

Her Kidney Trouble Quickly Disappeared

New Brunswick Lady Tells of Benefits Derived from Dodd's Kidney Pills

Miss S. Moorehouse Advises All Kidney Sufferers to Use Dodd's Kidney Pills.

Zealand Station, N.B. (Special)—"I saw your advertisement for Dodd's Kidney Pills," states Miss S. A. Moorehouse, who lives at this place. "I have suffered with kidney trouble for over a year, so I decided to give your Dodd's Kidney Pills a trial. I have used several boxes now and have found great relief in them. I can highly recommend Dodd's Kidney Pills and would not be without them."

The reason Dodd's Kidney Pills have come to occupy such a prominent place in the home is that so many ordinary everyday ills come from sick kidneys.

Rheumatism, urinary troubles, backaches and heart disease can be traced directly or indirectly to sick kidneys. To be assured of good health the kidneys must be kept in good working order all the time.

Trappers Secure Wolf Skins

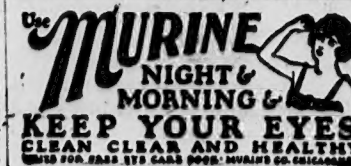

Northern Alberta's wolf population is of large dimensions, no less than 50,000 skins having been shipped out of this province as furs in the last year. They form a substantial source of revenue to trappers in the wilds.

Don't Submit to Aethma. If you suffer without hope of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

Powerful searchlights, sunk below ground level in a concrete trough, with flat glass cover, have been installed at London's air port, so that airplanes can land directly on the lights if necessary.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Exterminator.

The reason why Empire grievances are so readily dispelled at Imperial Conferences is that so few real grievances exist.

H. N. Simpson, who has been appointed superintendent of the Canadian Pacific Express Company at Winnipeg with jurisdiction over Manitoba and Saskatchewan, and Ontario, west of Port Arthur. Mr. Simpson succeeds W. M. Gordon, now superintendent at Vancouver.

Pain In The Muscles, Stiffness In Joints, Quickly Subdued By Nerviline

Those who have tested out numerous liniments will agree that where something is needed to dislodge a deep-seated, more or less chronic condition there is nothing to compare with Nerviline. It's because Nerviline penetrates so deeply, because it has about five times the strength of the ordinary city preparation, it has come to be known as King over all Pain. For Rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial proves this. Get a 35 cent bottle from your dealer to-day.

SUNDAY SCHOOL LESSON JANUARY 23

PRAYER IN THE CHRISTIAN LIFE

Golden Text: Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened unto you.—Matthew 7:7.

Lesson: Mark 1:35; 14:32-36; Matt. 6:9-13.

Devotional Reading: Psalm 63:1-8.

Explanations and Comments

I. The Habit of Prayer, Mark 1:35:—To gain strength for His days of strenuous work Jesus was in the habit of going off early in the morning to a quiet spot—a deserted place, where there were no people—and pray. He began the day with God. Alone in communion with his Father his strength was renewed and his problems were clarified, for there he learned his Father's will. Do we wonder that He should need to pray? Remember the tendency of life, the tendency of even the best life, to run down. Nobody knew this as well as Jesus did. See what he said about it. See chiefly what He did about it. He did not pray just to set an example. He lived the life of prayer because for Him it was worth living.—(William Fraser McDowell.)

"Much prayer means much power; little prayer means little power; no prayer means no power."—(J. Stuart Holden.)

II. The Spirit in Which all True Prayer Must be Offered, 14:32-36:—When Jesus and His eleven disciples reached the Garden of Gethsemane he said to eight of them, "Sit ye here while I pray," and then went farther on into the garden with Peter, James and John who were to watch with Him. It was a bitter hour. The end of His ministry was at hand. The traitor was coming to betray him to his enemies. He began to be greatly amazed and sore troubled. How truly human was our divine Saviour!

World's Largest Cities

Greater London Leads With Population of 7,476,168

Greater London, England, is the largest city in the world with a population (census of 1921) of 7,476,168. The second city in size is Greater New York, which, according to census of 1925, has a population of 6,103,384.

The largest city in Continental Europe is Berlin, capital of Germany, which, according to the census of 1925, has a population of 4,000,000. Berlin is the third largest city in the world, and the fourth is Paris, the capital of France. The largest city in the East is Tokio, Japan. Before the recent earthquake it had a population of about 2,300,000.

Paradoxical though it may seem, a wedding ceremony isn't considered a success unless there is a hitch in it somewhere.

Minard's Liniment—ever reliable.

Quickly Eases Irritated Throats

Slowly swallow a sip of "Buckley's". You'll be astonished by the immediate relief it brings to a sore, inflamed throat. Singers, speakers and smokers should never be without it. The first dose clears and soothes the throat and bronchial tubes—and there are 40 doses in a 75-cent bottle! At all druggists and guaranteed.

115 Mutual St., Toronto 1

BUCKLEY'S

Acts like a flash—a single sip proves it

Many Foreigners In Paris

Every Tenth Person Living in French City is Alien

One of every ten persons residing in the Paris district is a foreigner, according to the latest census returns of the Minister of the Interior for 1926, just published. The exact figure of the Parisian population is not given in the census, it being made according to departments, so that the estimate is an approximate one. However, it is within a fraction of the truth.

The returns give the total inhabitants of the Seine department as 4,628,637; that of the Seine-et-Oise department 1,137,525.

The whole of the former department is counted within Paris and a large part of the latter. The number of foreigners residing in the Seine is 243,784; Seine-et-Oise, 83,940.

The foreign population of the Alpes-Maritimes department, which comprises the Riviera, is still more dense, there being 140,648 foreigners out of a total population of 435,253. This figure, of course, does not include the floating tourist population, only genuine residents. The total for the whole of France is 40,743,851 inhabitants. Of these 2,493,234 are foreigners.

"CASCARETS" FOR HEADACHE, COLDS, CONSTIPATION

To-night! Clean your bowels and stop headache, colds, sour stomach

Get a 10-cent box. Take a Cascaret to-night to cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, a bad cold, are bilious, nervous, upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out. Are you keeping your bowels clean with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.

Cannot Have Tennis Court

Even the Prince of Wales is check-mated now and then by old laws and customs. The Heli Apparent, much to his surprise, has just learned that he cannot have the tennis court in the gardens of Marlborough House, which is to be his London home, because a clause in the original title deeds expressly forbids disturbances of the laws in any way.

SO SHORT OF BREATH SHE COULD HARDLY DO HER HOUSEWORK

Mrs. Nelson Moore, Milford, Ont., writes:—"I had heart and nerve trouble, and became so short of breath I could hardly do my housework, and was so nervous every little sound I heard felt like a shock to me."

A friend of mine recommended

so highly I got a box of them and they did me so much good I got the second box, and now I am feeling like a different woman."

Heart and Nerve Pills are 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Enjoyed Airplane Trip

Wife of British Air Minister Delighted With Journey to India

Lady Hoare, wife of the air minister, thoroughly enjoyed her aerial trip to India with her husband. Speaking to The Daily Mail correspondent at Karachi, where the plane arrived on Indian territory, she said:

"I never experienced such a comfortable journey either by train, sea or car, and I thoroughly enjoyed every moment. When I wasn't watching the scenery beneath I spent most of my time reading or in writing letters.

"My single suitcase proved ample baggage. Indeed, I could have done with less. One can powder one's nose in an aeroplane as easily as in a dressing room."

Busy Year for Vancouver

Vancouver's programme of improvement to public utilities in 1927 will be an extensive one involving more than \$2,000,000; for so the civic electorate has voted.

The Baby's Cold

Continual "cough" with internal medicine upsets delicate little stomachs. Treat colds externally with Vicks. You just rub it on.

VICKS VAPORUB

through the quiet hours when tourists hunt their ten franc table notes and the members of the fashionable company disappear for dressing and their more interesting dinner rendezvous. Yvonne could keep a crowd about her, however, and so could Joanna. Three times in succession Joanna lost the maximum, fifteen thousand francs. Then she won a sweep of the column twice. By now she was playing only the limit—fifteen thousand francs at each play. And across her shoulder, at her insistence, Roddy reached down at every play to touch with his fingers an added play of fifteen thousand francs which theoretically registered him as a player and the extra maximum as his own gamble. By this subterfuge the Golden Girl was avoiding the rules and staking, on every turn of the wheel, double the maximum. Brandon and Kenilworth exchanged glances. A chief de partie, the official who supervises each table for the Casino administration quietly took a stand beside the croupier. Mademoiselle had won a quarter of a million francs in an hour of play. And seemed to be unwearied. The official gave a hidden sign. Attendants in the quiet uniform of the Casino silently rolled up a square box set upon wheels. Out of the box they lifted cases of money which they put in the receptacles at the croupier's hand. Once, in just such a mood as she evidenced now, Mademoiselle Joanna had broken the bank. When she played the double maximum for an hour and had a winning streak, the chief de partie provided early for emergency.

Prince Michael and Yvonne after a time of desultory playing left their chairs and moved over to stand with Brandon and Kenilworth behind the girl at the table. Joanna felt their presence and called over her shoulder to Michael:

"You've got lots of pockets. Please empty my lap of money. My bag is filled and I can't take care of it all. And you can play with me as Roddy's doing."

It is so clearly against the rules for a player to go beyond the maximum play that the croupier, worried already by the obvious trick of Kenilworth's merely touching the second 15,000 francs in the girl's stakes, glanced sidewise at the chief de partie for his approval of this added evasion. Joanna caught the glance and treated the aged chief de partie with a warm smile that captivated him. He bowed to the croupier and Prince Michael, having emptied the pile of notes and gold which Joanna had scraped into her lap into his various pockets and overflowing it into Kenilworth's, reached over her other shoulder to help her make her play 45,000 francs at a time.

Yvonne, standing now edged against Brandon, suddenly felt his hand on her arm. When she looked up at him he signalled, with a look, a presence in the room. She turned and glanced about among the marble pillars along the corridors. She saw a figure already in dinner clothes standing idly between the columns where visitors loiter to take in the always thrilling scene about the roulette tables. The boy, for he was hardly more than a boy although he had the air of one who had grown big in the midst of something that counted, appeared to be underdetermined whether to pass on, and out onto the Terrace, or turn into the Salle de Roulette and investigate the reason for the crowd that hovered, with tense faces, about the middle table. Yvonne, when she had took in every detail of the figure in dinner clothes, glanced at Brandon. He nodded at her quietly. She threaded her way out of the crush and crossed the chamber.

The young man between the columns had decided, evidently, to pass on. But as he was turning into the corridor his eyes caught the woman who was approaching him. He moved

Mothers Prefer It

Because they know it is safe and sure, and the children like to take it.

Dependable for sudden Croup. **Chamberlain's Cough Remedy** No Narcotics—25c and 50c

to meet her, a glad smile in his face. Her two hands reached out to him, impulsively. Awkwardly he took them both, and would have dropped them but they held onto his.

"We knew you had come," Yvonne said, "and so I am to be the first to tell you what wonderful things you have been doing and how happy, I—we are! You are quite the same John Willmore we left in New York!"

The "we" was emphasized. John noticed that. It confused him. And the woman was still holding his hands.

"I did hope," he said, "that you wouldn't say I looked just the same. Every acquaintance I meet says that to me. I feel as if I was derelict in something; as if I ought to look different than I do."

"Now that's a very appropriate speech," Yvonne assured him. "It strikes home, because, frankly, I've been wondering since I read of your arrival, just how you'd look. Being famous does change some people, you know."

He fumbled a little with his released hands. Yvonne sensed the question at his lips. "She is over there," she said, "playing. That crowd is her's. She came in an hour ago quite normal but the Red and Black always sweeps her out of herself. She's playing the maximum treble, and winning. We mustn't disturb her now."

They walked across the galle and up to the edge of the crowd that pressed against the girl in the gold chair who still played, win or lose three times the maximum, and whose plays still troubled the chief de partie because she continued to win. Brandon came out of the pack and greeted John affably.

(To Be Continued)

Little Helps For This Week

My times are in Thy hand.—Psalm XXXI. 15.

I need not care
If days to come be dark or fair,
If the sweet summer brings delight,
Or bitter winter chills the air.

How this is planned,
Or that, I may not understand;
I am content, my God, to know
That all my times are in Thy hand.
—Mary Bradley.

Do your best loyally and cheerfully, and suffer yourself to feel no anxiety or fear. Your times are in God's hands. He has assigned you your place; He will direct your path; He will accept your efforts if they be faithful; He will bless your aims if they be for your soul's good.
—Frederic W. Farrar.

The Object Of Colleges

Important Thing is to Know How to Get Along With Your Fellow Human Beings

The object of colleges is to educate. The primary object has generally been said to be to educate in history and Latin and Greek and law and what not. But we do not agree with that. We think it is the secondary purpose of a university education. We do not believe that the education of the mind is quite so important as the education of the man, if you get what we mean. We believe it vastly important to any of you to know that you should treat your wash-woman with kindness and courtesy that it is to know the binomial theorem—whatever that is. After all, the most important thing you can know in life is how to get along with your fellow human beings—and that takes in a lot of territory. You may know a Greek root from a horse-radish root, but if you deal kindly and considerately with whom you come in contact, your life will be a success. College should teach you this. —American Boy Magazine.

For Colds—Minard's Liniment.

Owens Several Hotels

Mrs. Rosa Lewis, who at the age of 13, 68 years ago, had her first job as a "slavey" in the Cavendish Hotel, in London, arrived recently at New York in the Imperial suite of the Berengaria. She now owns the hotel in which she worked, besides many other hostilities throughout England. The Cavendish, in London, appeals particularly to college men, attracted by Mrs. Lewis' famous cuisine and her motherly interest in them.

Diamonds in the world have a total value of \$5,000,000,000 according to the recent estimate of a gem expert.

Minard's Liniment for chapped hands.

11 OUT OF 83

cases ended in death! So a recent Canadian investigation showed. These were not cases of infectious diseases—of consumption—of typhoid! They were cases where a person had sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted. When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 50c. box.

Zam-Buk

Only Fat Men Eligible

Five massive men with an aggregate weight of more than 2,000 pounds, form the backbone of the new Fat Men's Club of Berlin. The formation of this organization has been one of the big events of the winter social season.

No one weighing less than 350 pounds is eligible to membership. The weightiest member is Karl Sperling, 434 pounds.

KEEP LITTLE ONES WELL IN WINTER

By Regulating the Stomach and Bowels With Baby's Own Tablets

Winter is a dangerous season for the little ones. The days are changeable—one bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and through their use the baby will be able to get over the winter season in perfect safety.

In using Baby's Own Tablets the mother has an absolute guarantee that she is giving her precious little ones something that is absolutely safe and something that cannot possibly do harm to even the newborn babe as the Tablets contain not one particle of opiates or other dangerous drug. They are sold by medicine dealers or at 25 cents a box, by mail from The Dr. Williams' Medicine Co., Brockville, Ont.

Saskatchewan's Growth

According to an official announcement of the Department of Municipal Affairs of Saskatchewan, there are in this province at the present time 7 cities, 80 towns, 267 villages, 201 rural municipalities and 4,698 school districts.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have attested their power in hundreds of cases and at all times are thoroughly trustworthy.

"Hypocrisy is trying to make yourself believe that you don't think you are better than you know you are."

Matrimony has spoiled many friendships.

Strange, Romantic Love Adventures of the Flapper you know

Joanna

by H. L. GATES

Copyright 1925 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

CHAPTER XXV.—Continued

But, just now, with Prince Michael's sudden surrender to her creating a new undertone, and with the coming of John to irritate him, she was restless beneath Kenilworth's intent appraisals. And she didn't want to be cross examined about John. She hoped she was concealing from Roddy the constant searching of her eyes along the vistas of the Terrace and into the Casino Square which fronts the crowded tables of the Cafe de Paris, for a familiar figure.

In the atrium, the red and gold hung foyer of the Casino, Yvonne and Michael were awaiting them.

"The rooms are crowded," Yvonne observed. I've decided to hunt a place at the roulette tables."

Around each of the tables were crowds four or five deep—the late afternoon company of curious visitors to the world's gayest shrine of sin, tourists, cocottes seeking monsieurs for the evening, and old women hangers-on holding chairs with the hope of selling them to after-dinner habitués. All of these last, the old women of the gambling rooms, knew each one of the party that crossed the wide polished floor of the splendidly decorated rooms and glanced about for places. Croupiers, too, gave little signs to each other at the entrance of the sleek Yvonne and the lovely young American. Both had been the heroines

of sensational plays that had become Casino legends. Yvonne dropped into a chair Michael bought from an old hag for a fifty franc note. Kenilworth guided Joanna to another and won a cursey from the ancient dame who surrendered it by the size of his tip. Joanna plunged immediately into her play, Kenilworth standing close behind her.

"En, plien," she called again, and swept her 45,000 francs—\$5,000—onto the table.

When Joanna gambled she lost herself entirely. The color came into her cheeks as the rouge of noir, the red and black, divided its favors.

Others played with gold louis, or ten franc notes, counting their plaques nervously after each turn of the wheel. Joanna tossed thousand franc notes onto her colors or numbers or columns with feverish excitement. When she lost, and the croupier's wooden rake drew her stake away from her, she made pretty grimaces. When she won, and the rake pushed toward her fingers its pile of gold and silver and notes, she clapped her hands and turned to smile up at the man who stood over her. On this afternoon she made her first plays listlessly; as if her enthusiasm had been left with the hats of the men in the atrium; but with one or two winnings she had forgotten everything, seemingly, but the cry of the croupiers and the spinning of the wheel.

Brandon, strolling through the rooms as was his daily afternoon custom, came upon them. He pushed his way among the spectators who always gathered about the Golden Girl when rumor spread through the rooms that she was playing, and stood with Kenilworth, Joanna, conscious of his presence lifted her ungloved fingers over her shoulder for him to touch them. Kenilworth observed to the newcomer: "She's in a reckless mood. But she's winning!"

As a rule the Casino rooms clear with the first pallor of twilight. Only the inveterate gamblers remain

Do You Cough?

Photo by Kennedy

Guelph, Ont.—"I caught a severe cold and could not seem to get rid of it. It just clung to me and finally settled in my bronchial tubes causing me a lot of trouble. The cough would be more severe at night than during the day, causing sleeplessness. I finally decided I would try Dr. Pierce's Golden Medical Discovery and by the time I had taken one bottle I was entirely relieved of the bronchial trouble—my cough disappeared and I have had no trouble with a cough since. I do not think a person can take anything better for bronchial weakness or deep-seated coughs than the 'Golden Medical Discovery'."—Miss Mary Duggan, 170 Ontario St.

Liquid or tablets at your neighborhood store. Write Dr. Pierce, Buffalo, N. Y., for free medical advice.

Local and General.

The Y.W.C.T.U. will hold a food sale and tea in the Didsbury Opera House on January 29th, from 1 to 6 p.m. This being a new organization any help will be appreciated.

John F. Miller, eye sight specialist of 404 Underwood Block, Calgary, will be at Rosebud Hotel in Didsbury on Thursday, January 27th.

The Rugby Cheer-up Club is going strong, with Mr. Alex. George Reid acting as chairman and Miss Brubaker as secretary. Last Wednesday a splendid social and sports program was enjoyed by the members, after which a very dainty lunch was served. This club meets every Wednesday. Come and join in the fun. All are welcome.

Mr. and Mrs. A. T. Johnson and family left this week for Vancouver.

John Graham arrived here the other day from Etzikom with two car seat settlers' effects, and will settle on the John Metzgar farm.

Mr. and Mrs. J. E. McPherson left last week for Portland, Ore.

Harry McDonald, representing the Wheat Pool, was in town the other day on business.

Mayor Chambers has been spending a day or two in Calgary this week.

Mr. and Mrs. B. T. Parker left

on Monday to attend the U.F.A. convention at Edmonton.

If you are going to buy furniture wait for Jim Ruby's sale on Saturday, February 19th.

A miscellaneous shower was given on Thursday of last week in the Oddfellow's hall in honor of Mr. and Mrs. W. R. Coates, jun., whose marriage took place on New Year's Day at Olds. About fifty guests were present. There was a large and beautiful display of gifts, and after inspection of these, the guests spent the remainder of the evening in a most enjoyable dance.

A surprise party was held at the home of Mr. and Mrs. Mullen on Friday, January 14th when about one hundred of their friends and neighbors turned out to entertain them. A very enjoyable evening was spent with dancing and cards, and a delicious lunch was served.

At the annual meeting of the Women's Guild of St. Cyprian's held last Friday, Mrs. Booker was elected president for the ensuing year, Mrs. Newton vice-president, and Mrs. Morgan secretary.

The annual meeting of the parishioners of St. Cyprian's will be held on Monday evening next at the residence of Mrs. W. Leadbetter, when the reports of the various officers will be submitted and other business transacted.

See "Hogan's Alley" at the Opera House on Saturday, January 29th. Full of thrills--alley

fight, prize fight, police raid, aeroplane chase, train wreck.

Please remember the big benefit performance at the Opera House on Wednesday next, January 26th. An excellent picture will be shown in Gene Stratton Porter's "Laddie." It is hoped everyone will make a special effort to attend and thus help swell the funds of the hospital.

The officers of the Didsbury Agricultural Society appointed at the annual meeting held recently include—Dan Dippel, president; A. O. Fisher, 1st vice-pres.; Jas. Shiels, 2nd vice-pres.; J. V. Berscht, manager and C. R. Reiber, secretary.

Reserve: Thursday, March 17th, (St. Patrick's night) for the I.O.O.F. annual dance.

Hockey

There is jubilation in the ranks of the Didsbury Hockey team, and among the fans the enthusiasm is immense. Not for years has the standard of play and individual work on the part of the team been as high as this year, and its supporters are very hopeful of seeing the locals at the top of the league. Certainly, so far, this optimism is justified. Out of four games played Didsbury has won them all; the last win to its credit being obtained at Innisfail on Tuesday night.

The Didsbury team comprised—Clemens (goal), Studer and Reiber (def), Doc. Liesemer, Lloyd Liesemer, C. Cook, Elwood Evans and George Schade, forwards.

J. W. Phillipson, auctioneer. W. G. Liesemer, clerk. Gale Swingle, owner.

Field Pottassium Iodide

Continued from page 8.

water, and mix in the feed one tablespoonful of this solution once a day for each brood sow.

For ewes, thoroughly dissolve four ounces of potassium iodide in about a cupful of luke warm water. Spread 100 pounds of well dried salt evenly on a clean floor and sprinkle the solution of potassium iodide evenly over it and mix well. When dry, place the salt where the sheep may have access to it at all times. Ewes will use about half a pound each per month of salt. For small flocks, mix in proportion.

For pregnant cows, feed the potassium iodide on the salt in the same way as for ewes, but it may be found that some cows take very little salt. In this case, give the cow a quarter teaspoonful of finely powdered potassium iodide once each week in the feed.

For pregnant mares give each mare on the first and fifteenth of each month, in the feed grain or in the water, a level teaspoonful of finely powdered potassium iodide.

**Now is when You
really need a Car!**

Every feature of the Ford car recommends it for winter driving. The body is weather tight and cozy; the powerful motor enables it to negotiate snow drifted and slippery roads better than any other kind of car.

Mechanically, it has a reputation for endurance and dependability. With a Ford you will be independent of the weather and public conveyances. You can keep social engagements or conduct routine affairs with greater ease and speed.

Why risk your health and suffer the dangers and discomforts of uncertain transportation when a Ford closed car can be had upon easy terms?

Get a Ford now and before Spring it will have paid for itself in the saving of time and doctor bills.

PRODUCTS OF TRADITIONAL QUALITY

A Lesson From Montreal

The recent tragic occurrence in a moving picture theatre in Montreal where, following a panic cry of "fire," a stampede ensued resulting in the blocking of all aisles and exits and the consequent death through suffocation of seventy-seven children, should lead to a most careful investigation by all Provincial, municipal, school, and other bodies into the present exact condition of all public assembly, and an examination of all ordinances, by-laws and regulations governing the management of all such places.

Apparently not one of the children who lost their lives in the Montreal disaster was burned to death, but in the ensuing panic following the cry of "fire" the exits proved inadequate. It is even possible that the exits themselves were sufficiently large and numerous, but with people standing in the aisles they became jammed.

No doubt in most municipalities throughout this western country proper and stringent by-laws and regulations have been passed prohibiting the placing of extra seats in the aisles of theatres, churches, schools and halls in order to accommodate audiences in excess of the seating capacity of such buildings. It is undoubtedly against the law in most municipalities to allow people to stand in the aisles leading to exits, or in the exits themselves. If no such regulations have been made it is criminal negligence on the part of the responsible authorities.

The important thing is—are these by-laws or regulations faithfully observed? Are municipal officials alert in seeing that they are complied with? Is prompt action taken against the management of any building who neglects to observe this very fundamental need to insure the safety of the public?

As a matter of fact, it is not true that these regulations in public safety are only too frequently honored in the breach rather than in observance. Readers of this article can undoubtedly recall numerous occasions when extra seats have been placed in aisles and people have been allowed to block aisles and exits at largely attended public gatherings.

If those in authority responsible for the enforcement of these regulations for safeguarding the public are negligent, it would appear to be the duty of individual members of such audiences to make vigorous protest to the management in their own interest and in the interest of their fellow-citizens.

Proper construction of buildings can be provided for and enforced; the wisest regulations can be enacted; but when disaster suddenly threatens it is well nigh impossible to prevent a certain degree of panic, and if only two or three people lose their heads at such time the effect is contagious. It is absolutely essential, therefore, that the cool-headed in the audience have a fair fighting chance to get rapid control of the situation. This it is possible for them to do, because of an ignoring of necessary precautions, conditions exist which make for panic.

In Montreal no doubt there will be not only a searching investigation, but radical changes in regulations and a tightening up in their enforcement. This, of course, is necessary and wise, but it is only another example of locking the stable door after the horse has been stolen. In all our communities it will be wise if they now take the lesson of the Montreal tragedy to heart, and provide to the full extent that it is humanly possible to do against any like happening in their midst.

Makes Long Flight

In Passenger Plane

Montreal Woman Uses Air Line From England to Cairo

To a Montreal woman, Mrs. F. Evelyn Schopflocher, of 1904 Van Horne Avenue, has fallen the honor of being one of the first persons to make the flight in the first passenger airplane from England to Cairo.

The plane in which Mrs. Schopflocher was a passenger left Croydon aerodrome on December 20 and made a successful flight over England, France and Italy, flying over Vesuvius at a height of 9,000 feet and swooping down directly over the crater which was belching smoke clouds and flames. It then passed through the Straits of Messina to Malta, then across the Mediterranean to Rhodes and descended to 300 feet across the Semet territory between Benghazi and Selum.

Mrs. Schopflocher is to visit the headquarters of the Bahai movement at Haifa, Palestine, and will then fly to Bagdad, for a lecture tour, which will take her through India and Persia, lecturing on the League of Nations Union.

"Well, Elsie, it looks as if half your little guests are not coming."

"That doesn't hurt the eating program, mother, does it?"

Only the man who knows that he is in the wrong can afford to lose his temper.

Safety Film Invented

British Firm Has Non-Inflammable Film That Eliminates Danger of Fire

A cinema film which, it is alleged, is non-inflammable and would eliminate the danger of fire in projection rooms of moving picture theatres was tested in a well-known London theatre recently. The tests were apparently successful as the film refused to burn or emit poisonous fumes. The film is a British invention, the result of 14 years of experimenting. A factory is to be erected near London where it is hoped to produce the film in marketable quantities within six months.

Scientific Distribution

Great Britain Would Distribute Population Within the Empire

Britain does not regard its overseas settlement scheme as a means of getting rid of its unemployed population, but is rather endeavoring to develop a scientific distribution of population of all classes within the Empire. This was the statement made recently before the Montreal Women's Club by Miss Margaret Bondfield, M.P., in her official capacity as a member of the British overseas settlement committee and of the Society for the Overseas Settlement of British women.

Skeletons, believed to be those of the Vikings, were unearthed recently at Reay, Caithness, Scotland.

Deserved Name Of "Finest Man"

Philadelphia Theatrical Man Had Right Idea About Charity

A group of Philadelphians were discussing the death of Jules Mastbaum, the theatrical man. One of them was a milkman who declared that "Jules Mastbaum was the finest man that ever lived. Would you believe it his milk bill was from \$500 to \$1,200 every month for about five years?"

This called for an explanation and the milkman gave it. He said that when he began delivering milk to Mastbaum's house on his route, the great showman told him to go around and find out what families were so poor that their milk budget was a problem.

"Just look around," Mastbaum told the milkman. "You'll know which are the deserving ones and which aren't. When you have found those, just leave them as much milk as they need. The bill? Send that to me every month."

So, for four or five years, dozens of families in the poorer districts of Philadelphia have found milk on their doorsteps every morning but never a bill for it.

PEOPLE WHO NEED

HEALTH BUILDING

Should Enrich Their Blood by Using Dr. Williams' Pink Pills

There are conditions of health in which no particular organ appears to be at fault, yet the patient is miserable and unable to pursue the activities of daily life with vigor and enjoyment. The remedy needed is a medicine that will benefit the whole system rather than a part. The blood reaches every part of the body and an improvement in its quality is quickly followed by an improvement in the whole system. Dr. Williams' Pink Pills make a prompt and visible improvement in the blood, and bring new health and strength to ailing people. The value of Dr. Williams' Pink Pills in cases of this kind is proved by the following statement: Mrs. W. F. Nash, R.R. No. 1, Bellamy, Ont., writing on behalf of her husband says: "For the past two summers my husband has taken Dr. Williams' Pink Pills with much success. He was in a weak condition, did not sleep well at night, tired all the time, with poor appetite. The result was he got very thin. He decided to try Dr. Williams' Pink Pills and by the time he had taken three boxes he was feeling and looking so much better that it was very noticeable that the pills were all they were recommended to be. We feel very grateful and advise the use of the pills in all cases of weakness."

These pills may be had from all dealers in medicine, or by mail, post paid, at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

B.C. Tobacco

Tobacco growing is becoming a serious business proposition in British Columbia. Two hundred acres will be planted out at Keremeos, Cawston, Oliver and Osoyoos next year while the acreage at Kelowna will also be increased.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

Preventable Diseases

Fifty per cent of the people of Canada die before their time, in the opinion of Dr. H. M. Speechley, one of the leaders of Winnipeg's Health League. The most prevalent of human ailments in the dominion were the social diseases, pneumonia, cancer, influenza, diphtheria, measles, typhoid fever, scarlet fever and tuberculosis. All were preventable except pneumonia, cancer and influenza, Dr. Speechley said.

White street lines to guide motorists cost London hundreds of pounds monthly. Smoke, fog and rain cause the paint to wear rapidly.

Corns cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth.

The magui, a Mexican tree, supplies from its bark a thread three times as strong as ordinary cotton.

Sneezing?—Use Minard's Liniment.

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer, Manufacturer of Monocetide-acidester of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

A Modern Treasure Galleon

Spanish Liner Carries Priceless Art Exhibits Back From Philadelphia

Once again a Spanish treasure galleon sailed upon high seas, when the Spanish Royal Mail liner Manuel Arana sailed from New York recently.

In a special compartment in her hold, safe from intrusion by wind or weather—no matter how severe—she carried art treasures valued at more than \$15,000,000. These art treasures were taken from the Royal Palace in Madrid, with special permission of the King of Spain and placed in the Spanish Pavilion at the Sesquicentennial Exposition in Philadelphia.

Included in the collection were a number of priceless Goya tapestries, whose value was not figured in the total estimate, as they are considered irreplaceable. Also among the collection were a number of paintings of the 16th and 17th centuries.

The collection was brought from Philadelphia in a motor truck and was heavily guarded on the pier until loaded aboard.

Exploring Difficult Country

One of the few unexplored regions in the world exists in the interior of New Guinea. The government of Papua has dispatched Officer Charles Karlus on a 1,000 mile journey into the country, which whites have not visited. In an endeavor to discover the sources of the Fly river and Sepik river. It is believed to be a difficult country, including mountain ranges 12,000 feet high.

Alberta's Coal Supply

Alberta's visible coal supply is about 57 billion tons, Premier Brownlee declares. With the possible exception of China, Alberta has the greatest deposits in the world. The annual production from the province averages around 6,000,000 to 6,500,000 ton.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a foe.

Saskatchewan Crops

Field crops in Saskatchewan in 1926 are preliminarily estimated by the Dominion Bureau of Statistics to have been worth \$325,135,000. The provincial wheat crop had a value of \$234,460,000, which is substantially more than half of the Dominion total.

CRIPPLED

with rheumatism? Minard's will ease the pain, relieve the stiffness.

You Can't Eat This Trade Mark

BUT

You can eat the Bread which is wrapped in waxed paper on which this trade mark appears.

BECAUSE

Appleford Waxed Paper is made by very sanitary methods and is used by all the leading Bakers.

Children Cry for

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Absolutely Harmless—No Opiates. Physicians everywhere recommend it.

BELIEVES BRITISH EMPIRE IS GREAT POWER FOR GOOD

Victoria, B.C.—Premier Stanley Bruce of Australia, in a forceful and characteristic farewell speech before the Canadian Club at a luncheon here, dealt with the purpose of the recent Imperial Conference and then urged Canada to assume its full share of responsibility in providing defence for the Pacific.

"We can now go forward with confidence that we have got rid of one of the things of great danger in the Empire, and that was the inferiority complex which existed in some of the Dominions," Mr. Bruce said in dealing with the results of the Imperial Conference.

"In Australia we have never suffered from any inferiority complex but unquestionably some of the Dominions have. But now the Dominions have been told that they are all just as good as Britain and as good as one another."

"The British Empire is not a thing of fortuitous circumstances, but a great power for good that was predestined. Many people believe that this Imperial Conference was to have been a conference at which the death knell of the British Empire would be rung. I went there with the idea that the conference did not presage the breaking up of the British Empire, but that it would usher in a new era when we would have a greater desire for unity and desire for co-operation within the Empire. This Imperial Conference has done much for the consolidation and unity of the British Empire for years to come."

Will Not Amalgamate

United Farmers of Manitoba Defeat Motion to Join Farmers' Union

Portage la Prairie, Man.—The United Farmers of Manitoba in convention here voted down a resolution proposing that the organization follow the lead of the Saskatchewan farmers and open immediate negotiations for amalgamation with the Farmers' Union of Canada. The vote was overwhelmingly against the resolution, which was offered as an amendment to a proposal that the United Farmers of Manitoba directorate continue discussions with the Farmers' Union and co-operate with that body toward any end that might be of benefit to the farmers' movement in Manitoba. The original resolution passed.

A division of opinion developed when the proposed amalgamation of the two bodies was under discussion.

Urge Expulsion of Chinese

Suggested as Counter Measure by Ser. Vice League at Victoria.

Victoria, B.C.—Confiscation of property owned by Chinese in Canada and expulsion of all Chinese at given notice is advocated in a resolution that the Britannia post of the Canadian Legion of the British Empire Service League passed and will submit to the Dominion convention at Winnipeg this month, with the request that such recommendations be made to the federal government. This was suggested as a counter measure to the driving of British subjects out of Hankow and other Chinese cities.

Increase on Savings Deposits

Ottawa.—An increase of nearly 20 millions during the month of November, 1926, in the total of savings bank deposits held by Canadian banks is shown in the bank statement issued by the department of finance. The statement shows that savings deposits held on November 30 last mounted to \$1,367,295,012. At the end of the previous month they stood at \$1,347,564,144.

Soviets Assist British Miners

Moscow.—In response to a telegram from Herbert Smith and A. J. Cook, president and secretary, respectively, of the Miners' Federation of Great Britain, asking help for British miners suffering as a result of the coal stoppage, the general council of Soviet Labor unions has transmitted £10,000 to the Federation.

W. N. U. 1664

May Discuss Coal Question

Parliament Likely to Give the Matter Attention This Year

Ottawa, Ont.—The fuel problem has always been a more or less pressing one in Canada, but the indications are that it will take a more prominent place heretofore this winter in the discussions both inside and outside of the Dominion Parliament. The speech from the throne intimated that legislation would be brought down to further encourage the production of coke from Canadian coal. There is a question of freight rates on coal from Alberta and the Maritime provinces before the Board of Railway Commissioners and the Tariff Advisory Board has a conference asking for increased protection on certain classes of coal.

There are no coal mines in the province of Ontario and Quebec. A considerable portion of the coal used in these two provinces comes from the Pennsylvania and Virginia mines, the much shorter haul giving these states a decided advantage over the mines of Alberta and Nova Scotia. For some time, however, there have been agitations to make the rates on Canadian coal low enough that Western Canada coal and coal from Nova Scotia could be brought to the central provinces on a competitive basis with that from the United States.

Two resolutions on the order paper when the House of Commons adjourned for the Christmas recess placed there by T. L. Church, Conservative member for Toronto North-East, call on the Government to provide a "national policy" with regard to coal. The Alberta members as well as those from the Maritime provinces will also no doubt join in support of further action in this connection.

Trade Relations Are Not Satisfactory

Imports From Canada Much Greater Than Exports Says New Zealand Premier

Montreal, Que.—On arrival here, Premier J. G. Coates, of New Zealand, again endorsed the belief expounded in this country by Premier Bruce of Australia, that the British Dominions should bear their full share of the cost of Imperial defence.

Like Premier Bruce, he will cross the continent during his return from the Imperial Conference in London to his home and will stop off in various Canadian cities.

The immediate interest of the New Zealand premier at the moment is apparently centered in matters of trade and industry.

"No," he replied emphatically, when asked if his country was satisfied with present trade relations with Canada.

"We import five times as much volume as we export to you," and he intimated that this, naturally, could not be satisfactory. The disparity was not good for trade, he thought. When a balance went against one country heavily it was natural there should be a tendency towards decrease of trade with the favored party. Therefore, it was to the interests of both countries to make the balance more equitable. "We want to trade with the empire," he said.

Wage Dispute Settled

Montreal.—The wage dispute between 35,000 maintenance of way men members of railway unions and employed on Canadian railways and the railway companies, has been settled by the granting of an increase in wages based on a two-cent an hour raise. It was announced by the Railway Association of Canada. The men asked for an increase of ten cents an hour.

Leaves for England

Edmonton.—Hon. Herbert Greenfield is sailing from New York on the 22nd for London, where he will take up his work as overseas emigration agent for Alberta. He will be accompanied by Hugh Baker, former private secretary to the premier, who will be associated with him as secretary in his London office. Mrs. Greenfield and Mrs. Baker and family will also be in the party.

Pas Prepares for Dog Derby

The Pas, Man.—The Pas and district has commenced preparations for its yearly fete—the dog derby and winter carnival.

"Derby week" commences January 25 and some five or six dog teams, which have gained fame in eastern Canada and United States winter carnivals, are being whipped into shape.

Britain Forges Ahead

MONTAGU NORMAN

Governor of the Bank of England, who has arrived in New York, and states that he is optimistic regarding the business outlook in Britain.

Bandits Commit Atrocities

Thousands of Chinese Villagers are Slain in Interior Provinces

Shanghai.—Missionaries state that bandits have massacred many thousands of Chinese villagers in interior provinces of China during the past year.

A missionary who arrived here from a district near Wanchingpao, the Shantung province village where the entire population of 1,000 was reported to have been murdered by bandits for resisting their entrance, said that such affairs were common.

Honan province, where rival militarists have contended for months, has suffered most from bandits.

If a village makes the slightest resistance when bandits appear, said the missionary, every man, woman and child is mercilessly slaughtered. These massacres sometimes are accompanied with unspeakable horrors.

Pay Final Tribute

Winnipeg.—Final tribute to the memory of a pioneer of the prairies, to one who had braved the hardships of the early days of Western Canada in linking the vast stretches with railway communications and in developing the natural resources, was paid when hundreds of prominent citizens and business associates attended the funeral of John D. McArthur, railroad builder, who died here recently.

Was British by Birth

Bayreuth, Bavaria.—Houston Stewart Chamberlain, husband of Richard Wagner's daughter, Eva, is dead here, 72 years old. Of British birth he became a German citizen in the World War and later joined the extreme nationalists.

Gains Inspiration at Banff

Rudolph Friml, famous Austrian composer, has gone to Banff to gain inspiration for the score of the "Squaw Man," a new musical comedy upon which he is at present working. "Rose Marie," one of Friml's most recent successes, has popularized this young composer with the musical and theatrical world. The "Squaw Man" became widely popular through the interpretation of the actor, William Faversham.

In the accompanying photograph Mr. Friml is shown fingering a small key-board. It is an invention of his own and upon it he works out many of his compositions, while travelling overland where a piano is not available.

World Needs Real League Of Nations

International Friendships Being Cemented at Geneva Says Margaret Bondfield

Ottawa.—"The nations have reached the stage of public conscience where they recognize war for the vulgar and disgusting thing it is," said Miss Margaret Bondfield, Labor member of the British House of Commons, addressing a large gathering here on the subject of world peace and the relation of Labor to that aim.

"We can only assure world peace through a real League of Nations," she added, "and in that League there should be no vacant chair."

Miss Bondfield, who spoke under the joint auspices of the Ottawa Women's University Club and the Ottawa Women's Club, was introduced to the gathering by Hon. Peter Heenen, Minister of Labor, who welcomed her in the name of the Dominion Government and the people of Canada.

"The British Empire," said the speaker, "whether represented by man or woman, is accorded its proper place at Geneva."

There was being developed largely through International Labor conferences at that place, an international mind, and a start had been made in international labor legislation. International friendships were being cemented, and employers and employees of the world were finding "not how far they are apart but how much they have in common."

Russia To Buy Horses

Will Purchase From 2,000 to 5,000 for Military Purposes

Edmonton.—A special commission from the Russian government will be in Western Canada in the spring of 1927 to purchase from 2,000 to 5,000 head of horses for military purposes, according to an announcement made at the annual meeting of the Alberta Provincial Horse Breeders' Association by R. E. Wilson of Calgary, Dominion government horse promoter for Alberta. These horses, it is said, will be of a class which can very easily be spared from Alberta ranges as they are of smaller size and poorer quality, and horsemen are very pleased with the opening of the market for stock of this kind.

Lieutenant-Governor Sworn In

Toronto.—In the presence of a few personal friends, judges, representatives of the Toronto city council and wives of Ontario cabinet ministers, His Honor W. D. Ross was sworn in as Lieutenant-Governor of Ontario in the legislative chamber at the Parliament Buildings. The oath was given by D. J. Lemare, clerk of the executive council.

Mr. Ross succeeds Henry Cockshutt, Lieutenant-Governor since 1921.

FARM PROBLEMS ARE DISCUSSED AT CONVENTION

Saskatoon.—With fully 150 delegates attending, the Saskatchewan Agricultural Societies convention was held in the Convocation Hall of the University here. J. P. Robinson, Cadillac, vice-president, delivered the presidential address in the absence owing to illness, of Russell Wilson, Saskatoon, president, with whom several speakers expressed sympathy and best wishes for a speedy recovery.

Sickness also prevented the attendance of Dr. W. C. Murray, president of the university, whose place in welcoming the delegates was ably filled by Dean W. J. Rutherford, of the College of Agriculture.

Mr. Robinson reviewed the outstanding agricultural events of the year, pointing to the improvement in general business conditions as indicative of the general situation being back to a more solid foundation than during the years following the war.

Dean E. A. Howes, of the Alberta College of Agriculture, who is one of the principal speakers at the convention, gave an address on "The History and Development of Agricultural Societies and Fairs." His speech was interspersed with wit and humor and on more than one occasion he dared to warn the delegates they were going to laugh when he told his story.

Dr. William Allen, professor of farm improvement at the University of Saskatchewan, created a stir among the delegates when he revealed that a survey of farm management in the Belbeck and Melfort districts during the past summer led to the conclusion that the majority of farmers in those areas succeeded in spite of their management of their farms and because of the wonderful soils and other favorable conditions.

Mrs. Margaret MacDonnell, director of the Watson Agricultural Society, created a good impression in an address on "Exhibitions from the Women's Standpoint."

Dean Rutherford reviewed the various ways in which the different university departments are trying to assist agricultural development and progress throughout the province. In discussing the work of the animal husbandry department, he pointed out that a Yorkshire boar and sow sent to the United States had been mated and their progeny took a first prize at the 1926 Chicago International Livestock Exposition.

Dean Rutherford told the delegates to get their belts planted ready to receive plum and cherry seedlings now being grown at the university. Several thousands of young plum seedlings were growing in the grounds and they were waiting to see the fruit. Also they were growing 40,000 apple seedlings and 2,700 cherry seedlings.

Suggest Use For Liquor Profit

Might Form Fund to Help Pay Old Age Pensions

Ottawa.—Some discussion has been aroused in the capital by the suggestion made to the cabinet that the provinces might apply some of their profits from liquor sales to old age pensions. During the presentation of their program to the cabinet, L. L. Peltier, chairman of the legislative board of the Railway Brotherhoods, expressed the opinion that when the Old Age Pensions Bill is reintroduced it might assign to the provinces a somewhat larger share of responsibility for old age pensions, with the idea that profits from provincial Government control of liquor would furnish a fund for that purpose. This suggestion, through a misunderstanding, was attributed in press despatches to W. A. Best, another member of the delegation.

Premier Mackenzie King did not commit himself on the point beyond remarking that it was an interesting suggestion.

Canada's Jubilee

Ottawa.—Canada's diamond jubilee celebration, to be held in July next, has been engaging the attention of the cabinet, and an inter-departmental committee is being appointed to make preliminary preparations for the event. Announcement to this effect was made by Premier Mackenzie King at the conclusion of meeting of the council.

Cressman Bros.

Burnside.

Mr. and Mrs. Noel Eckel and son
Robert and Mrs. Joe Clark and son
Jack and Mrs. Ralph Lang spent
Saturday evening with Mr. Albert
Sprague and family.

Burnside U.F.A. are putting on an
entertainment in the Lone Pine hall
on Friday evening, January 28th.
There will be a good program of
music, dialogue, plays, etc. Admis-
sion, adults 50c; children 10 to 15,
25c; smaller ones free. Ladies
please bring cake as lunch will be
served after the entertainment.

Mr. Joseph Beamish, of Hamiota,
Man., is visiting his daughter, Mrs.
Bert Pross.

The home of Mr. and Mrs. Harry
Richardson was packed to the doors
last Friday evening when their
neighbors and friends gave them a
surprise party. A good time was had
by all.

Our school meeting in Burnside
school on Saturday last was well at-
tended and the retiring trustee was
returned again to office. Mr. Chas.
Morton, Mr. Joe Riste, Mrs. Geo.
Mets, comprised the board.

At Jutland we understand the 1927
school board consists of Mr. Geo.
Burns, Kaspar Sanforth and Lloyd
Meha.

Last Monday night, January 10th,
was a busy night at Lone Pine Hall.
The Burnside U.F.A. meeting came
first, then there was an A. F. A.

Executive meeting and a practice for
the concert to be held January 28th.
A large crowd was in attendance.

Mrs. John Grier spent Monday of
last week with Mrs. A. Thompson
of the Elliott ranch.

Mrs. Alex. Luper and children
have returned from their holiday at
Okotoks.

Mr. and Mrs. A. Thompson and
sons spent Tuesday evening at Mr.
Noel Eckels.

Mr. Abe Dyck met with a nasty
accident on Tuesday when a scaffold
on which he was working collapsed
and in falling he caught by one hand
on a broken splinter of wood which
pierced his left hand and held him
suspended in the air till he could be
helped down by his son. We are glad
to hear that his hand is improving
nicely.

A birthday party and dance was
held at the home of Mr. and Mrs.
Harry Steckley on the evening of
January 5th, in honor of Mr. Steck-
ley's birthday. The evening was
spent in dancing until midnight, when
a dainty luncheon was served. Danc-
ing was continued until the wee sma's
hours. The music was supplied by
Mr. Norman Tuggle, Mr. Leslie Ber-
nard and Mr. Ross Ford. Those pre-
sent included Floyd and Violet Steck-
ley, Grace, Enith and Lyn Hunsperger,
Mr. and Mrs. Irvine Klein, Wilfred
and Angeline Klein, Irene and Lottie
Hunsperger, Wilfred and Alice Ren-
nie, Jacob Walders, Archie Weber,
Blanche Porrin, and Grace Erwin.

H. E. Roppel, pastor

The "Christian Pilgrimage"

sermon series announced in this
column some weeks ago is now
on. For introduction, 35 picture
slides from "Pilgrim's Progress"
were shown last Sunday evening.
About 25 more were left over
for next Sunday evening and we
hope that everyone in attendance
will realize that the use of the
lantern pictures are not resorted to
at the expense of the truth
pertaining to Christianity.

The Board of Bishops of the
Evangelical church, seven in
number, have recently issued an
order to "Intensified Evangelism"
for the present quadrennium just
begun. All other activities in
the denomination program are
to become secondary matters, or
aids to Evangelism. Let the
church rise to this call.

"On the Plains of Hesitation
bleach the bones of countless
millions, who, at the Dawn of
Victory, sat down to wait, and
waiting—died!"

"It does not take much of a
man to be a Christian, but it takes
all there is of him."

KNOX AND WESTCOTT UNITED CHURCH

"Trinidad the land of the hum-
ming bird" is the theme for Sun-
day, January 23rd. This will be
illustrated by beautiful slides and
will give one a graphic account of
the work done by our missionar-
ies in that part of the world. Ma-
ny of us would like to go south
for the winter. The next best
thing is to visit the tropics in
imagination. Word has been
received that the slides are on
their way and every effort will be
made to have these for Sunday,
but in case the slides do not
arrive in time, missionary Sunday
will be held one week later.

Considerable repairs are going
on at the manse. This week the
basement has been enlarged and
by the time this goes to press
furnace should be installed. The
floor upstairs and down have
been painted and varnished and
other minor improvements made.

During these cold Sunday
evenings there is no warmer place
in town than the church. There
is no better place to spend an hour
and whether the subject of the
Sunday is of special missionary
nature or not, you will be helped
according to your need. Come.

LUTHERAN CHURCH.

Sunday January 23rd

Westcott—10.30 a.m., German.

8.00 p.m., English.

Didsbury—2.30 p.m., German.

In both German services the
pastor will speak on "Daniel in
the lions' den" basing his remarks
on Daniel 6:10-23. Following
the narrative as it is told atten-
tion will be called to various
points of interest: the plot of the
nobles, the plight of the king, the
faithfulness of Daniel, and the
protection accorded him from on
High. Special emphasis, how-
ever, will be placed on the trials
and the reward of faith.

For the English evening service
a New Testament text has been
chosen, John 15:1-8. The ser-
mon to be delivered on this text
is entitled "The Vine and the
Branches" or Christ and His
Church." During the course of
the sermon the following and

kindred questions are to be an-
swered: When does a person be-
come a branch of Christ, the true
Vine? What does God, the hus-
bandman, expect of every branch?
What awaits the branch that
withers and brings no fruit?

Acquaintances, members and
friends are cordially invited to
attend these services.

C. J. A. Nissen, pastor.

ing at 11 a.m.

School is held every Sunday.

Field Potassium Iodide.

After a long winter with deep
snow, such as seems in prospect,
hairless pigs, goitered calves and
lambs, and weak foals have fre-
quently caused very heavy losses.
These troubles are caused very
largely through lack of sufficient
iodine in the system of the preg-
nant mother. The deep snow
prevents the pregnant animals
taking exercise and getting access
to the soil. Exercise is always
beneficial, and the soil seems to
be a general regulator for the
system. It is probably for these
two reasons that hairless fall
litters are almost unknown, fall
calves and foals are almost strong
and there is almost no trouble
with late lambs. Another draw-
back to the deep snow is that
many animals are either eating
snow or drinking water and while
the water from many deep wells
contains sufficient iodine for the
requirements of live stock, snow
water on the surface, or in shallow
wells does not contain any iodine.

Feeding potassium iodide large-
ly increases the supply of iodine
in the thyroid glands of both the
mother and offspring and almost
entirely prevents losses from hair-
lessness, goiter and joint ill.
The iodine seems to have a stimu-
lating effect on the whole system
particularly the generative organs.
Pregnant animals produce strong-
er young, and uncertain breeders
often become pregnant after
potassium iodide has been fed
for some months. In three
years feeding experiments, with
pigs it has been found that pigs
receiving one grain of iodine
daily made an average greater
daily gain of 1.36 pounds and re-
quired 45 pounds less feed to
produce 100 pounds of gain; one
pound contains 7,000 grains.

Feeding potassium iodide re-
quires very little extra work and
is not expensive. The saving
of one litter of pigs, or one lamb,
alf or foal will many times re-
pay the cost of the material and
the labor of feeding. Potassium
iodide should be carefully and
regularly fed during the whole
period of pregnancy, but satis-
factory results have often been
secured where it was fed only
part of the period. In this
cold winter of deep snow farmers

are urged to commence feeding
at the earliest possible date.

For sows, dissolve one ounce of
potassium iodide in one gallon of
